WESTBASE.iO

RAPID CONNECTIVITY CASE PRO

Fully ruggedised day-one connectivity. It just works.

KEY FEATURES

- 7-in-1 integrated antenna enclosed within the lid (4x Cellular, 2x WiFi, 1x GPS)
- 2x external ruggedised RJ45 Ethernet ports
- 1x DC power-out to connect Starlink Mini (sold separately) for satellite connectivity
- 1x USB-C 130W power-in
- Rugged, high-capacity Lithium-polymer battery with integrated fuel gauge & power management
- IP67-rated
- SIM access and router LED status visibility

Stay connected anywhere with the Westbase.io Rapid Connectivity Case (RCC) Pro. This all-in-one solution includes an integrated 7-in-1 antenna, built-in battery, mounting plates, and Ethernet ports – just add your router.

Optimised for the Ericsson Cradlepoint R980 5G platform (sold separately), the RCC Pro features a compact but ruggedised case design, access to the SIM cover, clear visibility of router status LEDs, and a streamlined mounting system.

Perfect for temporary network setups across multiple industries, the RCC Pro delivers day-one connectivity at construction sites, emergency response locations, pop-up retail or hospitality, events, and more. With fast, portable connectivity, the RCC Pro keeps your team online – even in the most remote locations.

Plus, for areas beyond cellular coverage, you can extend connectivity with a Starlink Mini LEO satellite solution (sold separately) using the DC power-out port.

Specifications

Front

Back

Environmental Specifications		**Physical Dimensions**
